

**ITC Solar is Committed to Manufacturing Classic Industrial Grade Power Systems & Solar Modules. ITC Solar is a Wholesale Distributor and Integrator. We carry a wide range of Solar Panels, Systems & Products.**

**Solar-X™ line of Industrial Grade Solar Modules:**

ITC Solar is the exclusive North American distributor for **Solar-X™**. The Standard power ratings range from 2W up to 240W. All Solar-X modules incorporate large conduit ready junction boxes and heavy aluminium frames.

**Direct "Bolt In" Replacement Solar Panels:**

Replacing discontinued or hard to find Solar Panel models. Equivalent Solar Panels for Arco Solar, Siemens Solar, Shell Solar (SM55 SQ80), Kyocera Solar (KC Series), BP Solar (J-Box Series).

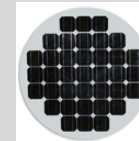

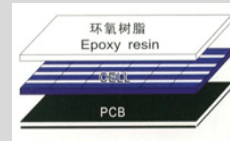

**SXPS™ (Solar-X Power Stations):**

Engineered to provide reliable, stand-alone solar power for every location and application. **SXPS™** are engineered to support a wide variety of remote solar battery power requirements with critical reliability in mind. **SXPS™** units consist of weatherproof enclosure, mount and batteries.

**Custom OEM Solar Panel Design**

Prototyping and fabrication services. We can design, prototype and fabricate an OEM solar panel for any size or application.

**APPLICATIONS:**

- 12 Volt battery charging
- Emergency communications
- SCADA systems & monitoring
- Railway signal lighting
- Street lighting Systems
- Cathodic Protection
- Oil & Gas
- RV and Marine
